

My home, My energy I have the power!

My home, My energy ... I have the power!

Today we're going to learn
some things about being safe
with Gas in our homes

My home, My energy I have the power!

Let's start by all introducing
ourselves and say **Hello**

My home, My energy I have the power!

- Working together as a group ...
- What things do we have in our homes that need Gas to make them work?
- Who will keep the score?

My home, My energy I have the power!

So do we all agree ...
the main three things in our
homes which use gas are:

- Your boiler to heat water
and the radiators

- Gas fire

- Cooker

My home, My energy I have the power!

- Today we're going to learn some things about being safe with Gas in our homes

- A Gas Leak from any of these things we use in our homes would be very dangerous

My home, My energy I have the power!

- It could cause an explosion and a fire

My home, My energy I have the power!

- Or it might make us very ill
