Understanding the Energy Market together

Switching can save you money

- Switching is a good idea when you can save money on your gas and electricity bills
- It can help your budgeting and keep you happy, warm and comfortable in your home

Understanding the Energy Market together

When to switch

- When you find a cheaper energy deal that will save you money
- This will usually be towards the end of your current energy contract
- Keep a note in your diary or on your calendar of when your energy contract finishes

Understanding the Energy Market together

How to switch

- Phone or write to your energy company and ask about their best deals
- Do your own internet search

Prioritise Me

Understanding the Energy Market together

How to switch

- Use an online Comparison Site
- There are lots to choose from
- Use an online Auto Switch Company
- Again there are lots to choose from
- Some charge a fee for their services
